

TABLE OF CONTENTS

HYDROLOGICAL SCIENCE AND TECHNOLOGY

Volume 17 Number 1-4

	page
Modeling a Mid-Sized Catchment Using a Physically Distributed Hydrological Model	
<i>A. Abu El-Nasr, J. Feyen and J. Berlamont</i>	1
A Decision Support Tool for Evaluation of Impacts of Flood Management Policies	
<i>S. Ahmad and S.P. Simonovic</i>	11
Total Maximum Daily Loading Model Development for a Wetlands Moderated Watershed	
<i>K.P. Albertin, M. Myers and A. Parker</i>	23
Climatic Change and Management of Regional Water Resources	
<i>N. Buras</i>	33
Mercury TMDLs for Southwestern Lakes	
<i>J.B. Butcher, C. Pollman, E.A. Thirolle, R. Harris, D.W. Smith, G. Olson, J. Hillenbrand and P. Kozelka</i>	45
Karst Ground-Water Hydrologic Analyses Based on Aerial Thermography	
<i>C.W. Campbell and A.G. Keith</i>	59
Setting Pollutant Load Reduction Goals for Banana Lake, Florida: Using a Coupled Hydrodynamic and Water Quality Model	
<i>X. Chen</i>	69
Safe Drinking Water Act Contaminants and Clean Water Act Pollutants: Surface-Water and Ground-Water Implications for Conjunctive Resource Management	
<i>W. Cooter, P. Cunningham, P. Ilie, E. Sullivan and J. Johnson</i>	81
Policy Reforms and Strategic Planning Tools for Water Resources Management: The Hashemite Kingdom of Jordan	
<i>D.J. Dal Santo and H. El-Naser</i>	91
Airshed Domains for Modeling Atmospheric Deposition of Oxidized and Reduced Nitrogen to the Neuse/Pamlico System of North Carolina	
<i>R.L. Dennis and R. Mathur</i>	107
Dislocation of the Continental Ground-Water-Divide Induced by Excessive Dumping in Summit County, Ohio	
<i>Y.Eckstein, B. Matyjasik and M. Matyjasik</i>	119
Review of the Transient Flowmeter Test Models	
<i>H.K. El-Sayegh, Z.J. Kabala and Y.W. Kim</i>	129
Temporal Response for Solids Budget Model in a Lake	
<i>C. Gualtieri</i>	145
The Land Management System: A Framework to Support Future Water and Natural Resources Decision Making	
<i>J.P. Holland</i>	155
Tank Model for Estimation of Standard Project Flood in a Small-Size Watershed	
<i>T. Kawatani, M. Saito and E. Asare-Boafo</i>	167
Earthquake Generated Water Waves on Uniformly Sloping Coasts	
<i>C.M. Kazezyilmaz-Alhan and E. N. Otay</i>	177
Certification of Spring Water Sources for the Bottled Water Industry	
<i>B. Kent, D. Paul and N. Boschetto</i>	191
Tropical Intraseasonal and Longer-Period Variability of Precipitation in the Isthmus of Panama	
<i>K.D. Leaman and M.C. Donoso</i>	203
Managing Ecological and Human Health Risk from Sediment and Fish at a CERCLA Site: Innovative Tools	
<i>C.C. Lutes, L.L. Herd, J.P. Staveley, T.R. Barber, T. Curtin and F. Rubesa</i>	223
Regional and Local Flow Systems in the Buffalo River Watershed, Northwestern Minnesota	
<i>J.A. Magner, C.P. Regan and M.D. Trojan</i>	237

Characteristics of Rain Chemistry and its Effects on Ground Water Chemistry in Selected Areas on Poland	
<i>J. Malecki and M. Matyjasik</i>	247
Integrating Parameter Estimation, Optimization and Subsurface Solute Transport	
<i>M.A. Medina, Jr., W. Thomann, J.P. Holland and Y-C. Lin</i>	259
A Method to Detect Streamflow Changes Resulting From Land Use and Land Cover Changes	
<i>Y. Mohamound</i>	283
Heavy Metals in Atmospheric Aerosols, Rainfall, Soils and Ground Water in Industrial Cartagena, Spain	
<i>J. Moreno, S. Moreno-Grau, J. Bayo, A. Perez-Tornell, J.M. Angosto, M.J. Martinez-Garcia, B. Elvira and J. Moreno-Clavel</i>	295
Nitric Oxide Emissions from Biosolid Amended Soils	
<i>P.A. Roelle, B-H. Baek, S. Aneja and V.P. Aneja</i>	305
Agricultural Pesticide Usage in Florida	
<i>A.N. Shahane</i>	317
TMDLs: Regulatory Impacts Beyond the Clean Water Act	
<i>J.P. Staveley and J.N. Christman</i>	331
Integrated Surface and Ground Water Modeling for Contaminant Fate and Transport Predictions	
<i>J.M. Sullivan, Jr. and Y. Zhang</i>	341
Effects of Soil Moisture, pH and Temperature on Soil Nitric Oxide Emissions	
<i>R.M. Tabachow and J.J. Peirce</i>	351
Application of the Jarvis-Stewart Model to a Forest With Much Evaporation From a Forest Floor	
<i>K. Tamai</i>	361
Hydrologic Conditions Affecting the Tropospheric Flux of Vinclozolin and it's Degradation Products	
<i>D.A. Vallerio and J.J. Peirce</i>	371
